

PartyBasics.com lowest price guarantee backed by **110% Price Protection!**

We know how much work and time planning a wedding or party takes. Since it is practically impossible to visit all of our competitors' websites daily, we have put into place a **110% Lowest Price Guarantee** Program. Through this program, you are guaranteed to get the best deal through us on any product that we sell. We are confident that we have the lowest prices on the Internet! If you find an identical item before or within 7 days from the date of your purchase, you will be entitled to our **110% Lowest Price Guarantee** Program.

Here is how our **110% Lowest Price Program** works:

1. To qualify for this program, the item you find must be identical to ours...the exact color, packaging, manufacturer, etc.
2. The competitor's price you quote must be verifiable through the Internet or a printed advertisement/catalog. The competitor's advertisement/catalog must be up-to-date, and the item(s) being price-matched must be in stock.
3. The website we are matching must not require a log in order to make a purchase.
4. We don't match one deal per day sites and/or daily deals on a regular site.
5. The item that we are price matching must be the same item with no modification of any sort. Different styles in the same series are not considered same models.
6. Auctioned items on eBay, Yahoo or other online auction sites do not qualify for this program. In addition, we regret that we are unable to offer a price-match with businesses that are liquidating inventory or "Going out of Business" or in distress.
7. Our program applies only to businesses in the United States.
8. Price match request cannot include a "One-Time" or "New Customer Sign Up" promotion or coupon code, we will deem this information/price as non-verifiable and will be unable to issue any type of refund.

To have us beat the price on an item contact us via email. Please email us the URL where you found the same item for less. You can just copy and paste the URL from your browser into your email and then send the email to us at **info@partybasics.com**. When we get the email, we will visit that site and make sure that all of the above mentioned criteria has been met. When you request a price-match, the price is based on the lowest price of the actual item including shipping and handling and/or any applicable taxes.

An example of how our **110% Price Protection** program works:

PartyBasics.com Product price with Shipping & Handling: \$29.87

Competitor's Price with Shipping & Handling: \$25.00

Price Difference: \$4.87

Additional 10% Discount: \$0.49

Your Total Refund: \$5.36

As you can see, we will refund you the difference between our price and our competitor's price. Then, we will also refund an additional 10% of the price difference! Adjustments in price are limited to one price match per item within a 14-day period. Please allow 7-10 business days for your price-match request to be processed once it is received. Once we have validated and approved your price-match request, you will immediately be issued your refund.

PartyBasics.com reserves the right to refuse any price match on any item that does not meet the above mentioned criteria of our **110% Price Protection** program.
